For a perfect imitation of the sound equipment that accompanies the camera is very important. The player is like the standard equipment of the sound from the camera, except for this, also adds the monitor to watch the dramatic program. The player is for this reason an important element of a perfect study of the drama. The analysis of the film made with sound is very possible without the help of any additional equipment.Perfusion

MRI in the assessment of a neonate with an atrophic right hemisphere posthemiplegia of unknown origin. A newborn presented with seizures and ataxia, despite normal neurologic examinations, brain imaging, and diagnostic testing. Brain imaging revealed a large cerebral hemisphere with a central, atrophic area as well as acute infarcts. Follow-up brain MRI
